Experience

Acidaes Solutions Pvt Ltd

2022 – Present

Engineer

Noida

- Developed a page designer tool using **React** and **JavaScript**, enabling drag-and-drop UI elements with features like resizing, positioning, and alignment for flexible design.
- Created visual representations of user data through graphs and cards to provide insights into user engagement and behavior.
- Created reusable components in React.js, optimizing development time and ensuring consistency across the application.
- Developed and maintained scalable full-stack applications using the MERN stack, enhancing user experience and reducing page load times by 30%.
- Wrote unit and integration tests using Jest and Enzyme to achieve 95% test coverage.

Nectar Infotel Solution Pvt Ltd

2021 – 2022

Junior Engineer

Indore

- Designed and implemented user-centric interfaces using React.js, HTML5, and CSS3, increasing user engagement by 20%.
- Designed and implemented RESTful Apis for seamless data integration and communication between front-end and back-end systems.
- Streamlined version control processes using Git, resulting in a 50% reduction in merge conflicts and enhancing team collaboration across five simultaneous projects within the engineering department.
- Conducted code reviews and debugging, ensuring high- quality deliverables and adherence to best practices.

Projects

Vivid Designer(Customer Relationship Management)

Present

- Developed a React-based CRM solution focused on streamlining customer relationship management. Designed dashboards, contact management, and sales tracking features. Ensured seamless integration with third-party services for enhanced functionality. Optimized performance for diverse device usage. Collaborated with stakeholders to optimize system reliability and security.

Control Surface(API Monitoring Dashboard)

Oct 2022

- Utilized Next.js to create a dashboard-based API health monitoring system. Implemented real-time alerts and user access management features for enhanced security. Integrated interactive graphs for visualizing API metrics and collaborated with stakeholders to optimize system reliability and security.

Multitel (E-Commerce Platform for Electronics)

Aug 2021

- Developed a feature-rich e-commerce platform for electronic products with product filtering, cart management, and secure payment integration. Designed a responsive admin dashboard to manage inventory and track orders. Created an intuitive user interface for seamless shopping and transactions. Implemented a super-admin module to oversee platform activities and analytics..

EDUCATION

Corporate Institute Of Science And Technology

2017 – 2021

B.Tech in Computer Science and Engineering

CGPA: 8.34
